

## **Using Sumac to Enhance Non-Profit Effectiveness**

**A Public Forum with Peter Turk**

Wenesday, June 2, 2010, 5:30 PM – 7:00 PM  
Centre for Social Innovation, 1<sup>st</sup> Floor Boardroom  
215 Spadina Avenue (between Queen and Dundas)

This is a free event, but please RSVP to: [registrations@sustainabilitynetwork.ca](mailto:registrations@sustainabilitynetwork.ca)

In December, we presented a seminar to help non-profit organizations choose data management software. It identified two over-arching reasons for managing your data:

- enhance your relationship with your constituents
- build and maintain organizational memory.

Sumac supports these objectives, contributing to organizational effectiveness and efficiency. This presentation will demonstrate how Sumac integrates data about many aspects of non-profit operations to enhance communications, fundraising, case management, and mission-specific activities, while decreasing administrative burden.

Please join us for this forum, as Peter Turk, President of Sumac, talks about how Sumac can effectively help you seamlessly integrate your fundraising, communications and other project management operations.
